

# LOCATE A LOCUM

## Company Market Rate

**McKESSON**

### Pharmacist Company Rate vs Market Rate Breakdown

#### Analysis

McKesson consistently pays above the prevailing local locum rate, this may be to attract locums with slightly more favourable rates and in two instances may have had to pay for last-minute shift cover.

Utilising tools such as Locate a Locum's market rate tracker, should enable McKesson's to remain on top of their locum expenditure and reduce the requirement for last-minute shift cover rate inflation.
